FREE SHIPPING TO A COMMERCIAL ADDRESS OR FREIGHT TERMINAL IN THE CONTIGUOUS 48 STATES

Manufactured in Sweden under the name Electrolux, the Servel/Dometic RGE400 has provided reliable refrigeration around the world for decades. This model features a 6.4 cubic foot refrigerator and a 1.6 cubic foot freezer, which can be run on Propane, or AC Electric with the flip of a switch. The only electricity required is four D Batteries for the light. Operation of the refrigerator is straightforward with the Igniter, Thermostat, and Fuel/Electric Selector located on the bottom front of the unit. Inside the Refrigerator you will find an all white interior with adjustable/removable shelving, two vegetable crispers, and door shelving capable of holding two liter bottles. This refrigerator does not require venting, however there is an optional direct vent kit available. Clearance of 4 inches should be left on the top, and 1" on back/sides of the unit for proper air circulation. Check out the listed features and Specifications below:
