

Sun Frost R10 - Refrigerator

The Sun Frost R10 is the same width & depth as Sun Frost's larger models but are shorter, and for maximum convenience would require a higher base cabinet. The R10 is a refrigerator-only unit.

Sun Frost refrigerators and freezers are so outstandingly energy-efficient, powering a home with solar power or other low output energy sources is both feasible and affordable. All models are available in 12, 24, 48 volt DC, or 110 or 220 volt AC. Even in a home using conventional utility power, energy consumption for refrigeration is typically cut by a factor of five!

Sun Frost participates in the U.S. government ENERGY STAR® program, and several of the models bear the ENERGY STAR label.

In addition to unrivaled energy efficiency, Sun Frost offers amenities not found in conventional refrigerators, such as high humidity, food-saving storage, ultra-quiet operation and an easy-to-clean interior.

Every Sun Frost is custom crafted - you choose the hinge side and finish. Your Sun Frost can be finished with a number of laminate or wood finishes. Sun Frost is now also offering a stainless steel option.

Model	Description	Daily Energy Use (amp hrs @ 12 VDC / kwh @ 110 VAC)		Dimensions (see clearances below)			Shipping (export add 40 lbs.)	
		at 70°F 21°C	at 90°F 32°C	Height	Width	Depth	Weight	Volume
R10	Refrigerator Only	13 amp-hrs .17 kWh	23 amp-hrs .28 kWh	43.5"	34.5"	27.75"	215 lb.	32 C.F
<p>Voltage: All models are available in 12 volt DC, 24 volt DC, 48 volt DC, 110AC, or 220AC. Listed energy consumptions are for 12 volt units and 110AC; 24 volt units use half the listed amp hours. KWHs are listed for AC units. 48 volt DC: Please call for pricing.</p> <p>Clearance: The doors are mounted on a continuous stainless steel piano-style hinge. <i>It is important to allow an additional 3.75" width on the hinge side for the door to open.</i> All units require minimum 6" clearance above the unit to allow for heat ventilation. Also, PLEASE NOTE: Oak veneers add a quarter of an inch to overall exterior dimensions, all other wood veneers add a half an inch.</p>
